

FUN FACTS ABOUT HORSES

Horses are very clever and have amazing abilities to not only recognise different humans but also to recognise and distinguish between the emotions they are feeling!

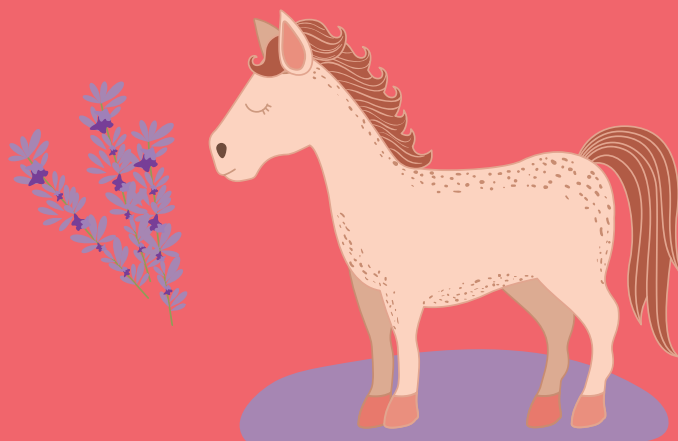

Could you pass the carrots please! -

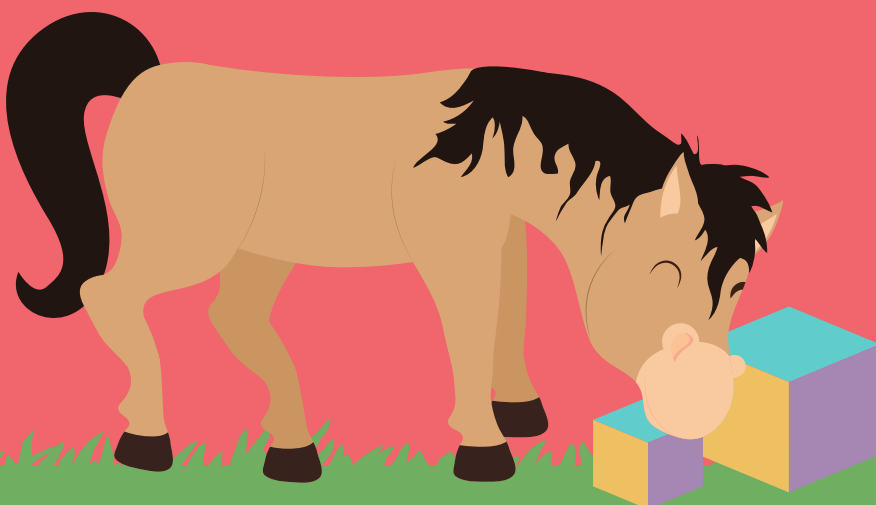

Horses can ask for "favours"! In studies, horses will nudge and signal to a human for help if they know there is a treat hidden in a bucket they cannot reach!

Studies have shown the scent of lavender has a calming effect on horses, much like in humans, lowering their heart rates in stressful situations.

Abhhhhh, that's nice....

Horses are able to recognize the differences between shapes and transfer that knowledge when presented with different visual examples!
