

FUN FACTS ABOUT SHEEP

Sheep have a great sense of smell. This ability helps mothers to locate and care for their lambs just by their unique scent.

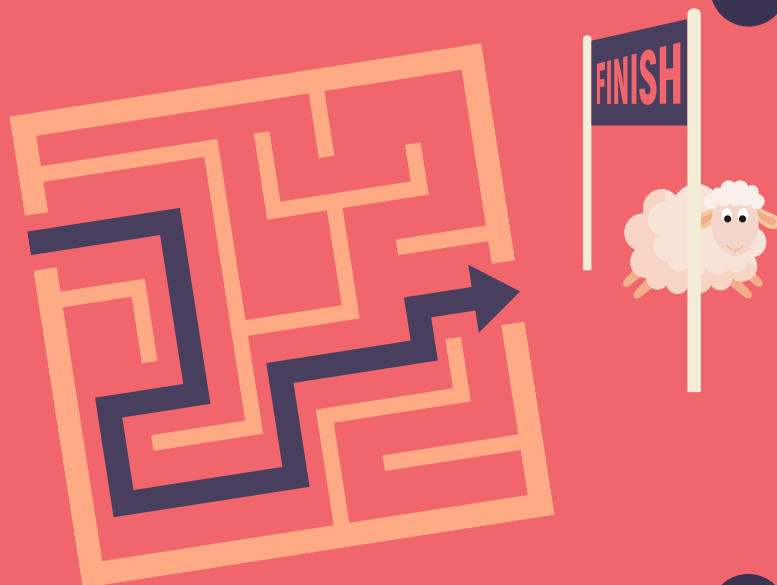

Hi Bob!

Sheep memories are also great. They can recognise up to 50 sheep faces and remember them for two years!

As if that wasn't impressive enough, sheep use their excellent memories to navigate mazes and get through them quickly!

Sheep are also great at recognising and distinguishing between human faces. One fun study used photos of famous faces like Barak Obama, Emma Watson, and others!
